3. From the above information, it is requested that this office be advised on the following points:

A. It appears that the original intent of the travel order was thirty days at [REDACTED] but was later amended to include various other points and extend the period of time to 75 days. Will amendments numbers one and two be considered as a part of the appropriate personnel documentation required by paragraph 115g(1) of the Department of State, Standardized Regulations (Government Civilians, Foreign Areas)?

25X1A6a

B. In view of a recent decision from your office the terms "post" and "area" are used somewhat synonymously. Would the term "area" be held to include only the [REDACTED], the [REDACTED] in their entirety or would the term be extended to include the entire Far Eastern Area of which [REDACTED] would be a part?

C. In view of the phrase "from his permanent station" in line two of Department of State, Standardized Regulations (Government Civilian, Foreign Areas), paragraph 115g(2), can this regulation apply when an individual is away from his "on detail" point on temporary duty. In the case at hand subject performed duty in [REDACTED] proper for less than sixty days but was away from his permanent station in excess of sixty days.

D. May the attached claim be certified for payment?
